

# One more way to administer tests and see the results immediately in Schoolnet with ***Student Response Clickers***

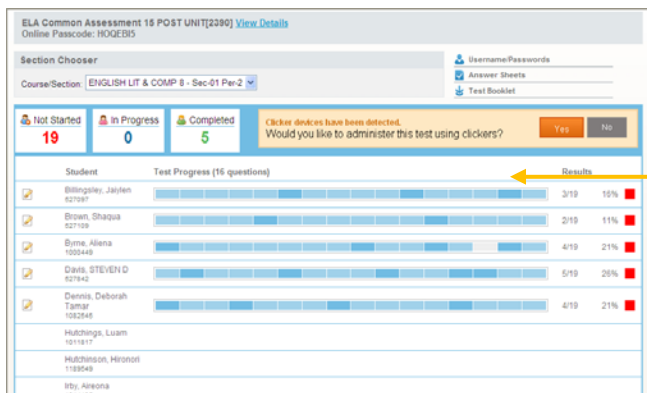

## Student Response Clicker Integration

Districts that invested in “clicker systems” for the classroom may now automatically see those results in Schoolnet. Starting with eInstruction\* Student Response Clickers, districts will have one more way of easily administering tests and immediately seeing the results in Schoolnet.

**Monitor student progress as they take the test**

Teachers can see student responses through Schoolnet as students answer questions

**Results are immediately in Schoolnet**

Teachers submit the test for scoring and the results are immediately available in Schoolnet

\* Available to Schoolnet Districts using eInstruction Clickers.
