

Web-Based Gradebook

Schoolnet GradeSpeed™

Classroom management tools that help teachers focus on instruction

GradeSpeed is the easiest to use, fully browser-based gradebook that provides teachers with a variety of classroom management tools that help streamline and reduce administrative tasks so that they can bring the focus back to instruction. Teachers use GradeSpeed to track a variety of student data to help them monitor and improve student performance.

GradeSpeed's simple interface enables teachers to record student grades and standards-based assignments, rubric-based observations, assessments, student attendance and behavioral data. GradeSpeed also enables parents and guardians to securely access their child's grades, communicate with teachers and set alerts and notifications based on grades and attendance data. GradeSpeed provides administrators with a variety of reporting tools to monitor student achievement and a robust report card generator that allows for the creation of customizable and standards-based report cards.

GradeSpeed combined with the Schoolnet Suite of data-driven education software, provides educators with a robust set of reporting, teaching, planning and assessment tools that help teachers use data to improve student and district performance.

Key Features and Benefits

Teachers can:

- Effectively manage all aspects of the classroom including recording student grades, taking attendance and creating seating charts
- Align assignments and tests to state and local standards to improve classroom instruction
- Configure a variety of grading-related components, including assignments, weighting, reports, conduct notes, grading scales
- Access GradeSpeed from any Internet-connected computer or wireless PDA

Districts can:

- Quickly and efficiently generate report cards and progress reports with support for multiple languages, custom layout and design, and standards-based formats
- Easily and securely monitor, edit and transfer student grades within the district from a central location
- Opt to enhance GradeSpeed with the discipline module to track and manage discipline events and actions across the district

Parents can:

- Use ParentConnection to access their children's grades, assignments, attendance records, report cards, disciplinary incidents and more.
- Set "triggers" to automatically alert them via email, phone call, or text messaging for pre-established events

Students can:

- Use StudentConnection to see grades, attendance, discipline incidents, report cards, request courses, view assignments, send notes to teachers and even create their own "trigger" notifications

Technical Specifications

Schoolnet's web-enabled, zero-footprint applications are designed to industry standards:

- Open and interoperable
- Microsoft® .Net Framework
- Microsoft® Internet Explorer 6.0 and higher, Apple Safari 1.3 and higher, or Mozilla Firefox 1.0 and higher and Konqueror (Linux)
- Microsoft® SQL Server 2005 and 2008

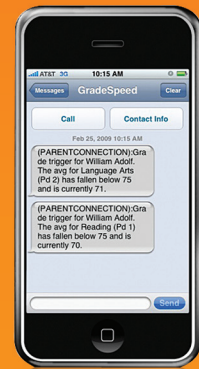

Services

Schoolnet offers:

- Comprehensive services– from needs assessment and implementation to training and user workshops – to drive adoption and usage district-wide

Student	Math	Science	English	History	Art	Music	Physical Education	Health	Foreign Language	Other	Overall Average
Adams, Michael A.	85	75	80	70	80	75	80	75	80	75	78
Allen, Robert H.	70	65	70	60	70	65	70	65	70	65	68
...

Even when scrolling to view assignments or students, the student names and assignment titles remain visible at the margins of the screen. Additionally, the "Student" and "Assignment" boxes at the bottom right corner of the page always display which cell is currently selected.

Alerts can be sent by email or text message (or with the Voice Server module, districts can also use phone callouts). Each "trigger" can be sent individually and in the format preferred by the parent.

Parents and students can set "trigger" notifications from their ParentConnection or StudentConnection accounts that allow them to receive alerts (examples include attendance, grade status changes, etc.).
